

Buy Any Three N6700 Modules and Get a FREE Basic Module

There's more to a great power supply than just clean, reliable power. That's why the N6700 Modular Power System is designed to simplify difficult tasks and streamline setups:

- Gain insights with scope-like display, ARB and data logger
- Ensure DUT safety with extensive built-in protections
- Increase throughput with industry-leading processing speed

Buy three; get one FREE

Now until March 31, 2012, buy any three N6700 modules and receive an additional basic N6700 module at no cost when you register your purchase online. Details below.*

But hurry, quantities are limited.

1 + 1 + 1 = 4

Yours FREE

- ▶ One basic N6700 module when you register your promo purchase online.*
- ▶ New Power Products Selection Guide and 2011 Power Products Catalog
- ▶ New, helpful Application Note: "10 Fundamentals You Need to Know About Your DC Power Supply"

For your free module or more information, register at www.agilent.com/find/PowerPromo

* Purchase any three N6700 modules; register module serial numbers online and receive an additional basic N6700 module FREE of charge. Will ship only to the United States and Canada. You can purchase your new N6700 modules from a distributor or from Agilent, but only end users are eligible to receive a free module. Distributors are expressly excluded from receiving free modules under this offer. Offer valid from October 1, 2011 through March 31, 2012, or while supplies last.
